ABOUT ICAF

The web-based solution is a conference management system to cater for ICAF 2021 - academic conference organized by SLIIT. The solution offers many functionalities for Presenters and Researchers to present their works to a broader audience. The app makes the content easily accessible to the users as well. The centralized approach to the system makes it easier for the admin to properly administer the system and for the editor to easily manage content. The following functionalities are the functionalities provided by the solution.

- User management
- Content management
- User payment management
- Easy access to content

Project Rundown Frontend

April 28 - May 2

Designed the user interfaces

May 2 - May 21

Implemented user interfaces

May 21

Incorporated Redux

May 21 - Jul 30

Implemented the functionality

May 2, 2021 – Jul 2, 2021

Contributions: Commits

Contributions to main, excluding merge commits and bot accounts

Project Rundown Backend

April 9 - April 11

Decided the functionality

**April 11 - Jul 30**

Implemented the functionality

Jul 30

Did API testing

Apr 11, 2021 – Jul 2, 2021

Contributions: Commits

Contributions to main, excluding merge commits and bot accounts
